SAOS Quick Start Guide

For Business Fleet Clients (7 Agents)

Your SAOS deployment is ready. Here’s how to actually use it.

1. Connect to Your Server

Your dedicated SAOS server runs on a private VPS. Access it securely through Tailscale:

```
1. Install Tailscale: https://tailscale.com/download
2. Accept the invite email from Systack
3. Join the network: tailscale up
4. Your server will appear as: saos-[your-business].tail573d57.ts.net
```

Server details: - IP: (shown in your dashboard) - RAM: 16GB - vCPU: 8 - OS: Ubuntu 22.04 LTS

2. Talk to Your Fleet

Your agents communicate through the web dashboard or messaging channels:

Web Dashboard

- URL: `http://localhost:8765` (when connected via Tailscale)
- Shows: Agent status, task queue, recent activity

Messaging Channels

- **WhatsApp:** Text your business number
- **SMS:** Text your assigned number
- **WebChat:** Embedded on your website

3. Your 7 Agents — What Each Does

AGENT	ROLE	WHAT TO ASK IT
SOL	Orchestrator	“What’s the status?” “Queue a task”
VALI	Quality	“Check this for errors” “Validate output”
PESSI	Risk	“What could go wrong?” “Flag issues”
ORACLE	Architecture	“Design a workflow” “Research solution”
ATLAS	Knowledge	“What did we decide?” “Find previous task”
ASSEMBLY	Deploy	“Deploy this” “Rollback last change”
JURIS	Compliance	“Is this legal?” “Review contract”

4. Common Tasks

Invoice Processing

Forward invoices to your agent email: - The agent reads and extracts data automatically - Reviewed by JURIS for compliance - Stored in your database - View: Dashboard → Invoices

Order Taking (WhatsApp/SMS)

Customers text your number: - Agent confirms order details - Sends to your POS or email - No app required for customers

Lead Qualification

Ask ORACLE: “Check for new leads” - Scrapes configured sources - Scores and ranks prospects - Delivers morning briefing

Daily Morning Briefing

Ask SOL: “Morning briefing” - Overnight task summary - Pending items requiring attention - New leads or orders

5. Troubleshooting

PROBLEM	FIX
Can't connect to dashboard	Check Tailscale is running: <code>tailscale status</code>
Agent not responding	Check dashboard for agent status (green dot = online)
Messages not sending	Verify phone number configuration in n8n
Invoice not processing	Check spam folder; ensure PDF attachment
Slow responses	Check server load in dashboard; may need RAM upgrade

6. Support

Emergency (service down): Call emergency line (provided after signup) **General:** support@systack.net

Dashboard: Check status at <https://systack.net/status>

Response times: - Critical: Under 30 minutes - Broken feature: Under 2 hours

- General: Under 24 hours

7. Next Steps

- ☐ Connect via Tailscale
- ☐ Send test message to your agent
- ☐ Forward one invoice to test pipeline
- ☐ Review dashboard daily for first week
- ☐ Schedule training call if needed

Questions? Message SOL directly: “I need help with [topic]”
